

## DVSA Pump Alternator Control and Alarm System

## **Pump Alternator Features:**

- Prolongs pump life by alternating two primary pumps
- Runs ONE pump at a time
- Can handle up to 1 HP pumps (Each pump 15 Amps Max.)
- If one pump fails the other pump will take over and an audible alarm will sound
- Flashing light will indicate which pump is failing
- Remote terminal allows the unit to connect to the Pro Series WiFi Module, security system, auto dialer or other dry contact based device
- · Includes two low-voltage vertical float switches
- If one float switch fails the other float switch will take over and an audible alarm will sound
- Angled receptacles to accept a standard or right-angled pump plugs
- High Water Alarm with accompanying LED indicator, audible alarm, and 9V battery backup
- Plug and play for easy installation
- 9 foot long power cord
